

Success

requires a perfect
balance of all
elements...

sierra[®]

The Original Super Fabricator

We have all the elements

There isn't one key feature that can guarantee your business success in 2008. To ensure a stable future you need a partner who can provide you with a perfect balance of all the elements.

Over recent years many companies have focused too heavily on price much to the detriment of their business and the industry as a whole. Cost cutting exercises are not sustainable and companies who react to these pressures will only benefit from short term gains. To ensure a long and successful future you need to be focusing on differentiating your business by offering something over and above the competition. A partner who will do more than just be your supplier, someone who will work with you to provide you with the support to move your business forward.

Sierra can provide you with all the elements for a stable and successful future.

- **STABILITY** As part of the multi million pound Epwin Group Sierra guarantee stability.
- **VALUE** Real value requires a combination of service, quality and price.
- **SERVICE** Consistent service is one of the features that sets Sierra apart.
- **INNOVATION** Exclusive coloured foils are one of the ways Sierra can keep you ahead.
- **SUSTAINABILITY** Free recycling and energy efficient products will make you more sustainable.
- **MARKETING SUPPORT** Our bespoke marketing support service is second to none.
- **COMMUNICATION** Our dedicated customer support team provide first class communication.
- **EXPERIENCE** With 32 years experience we know what it takes to succeed.

Get the right balance for your business
